

# REMOTE GATE CONTROL APPLICATION

Residents of Horseshoe Acres Club can remotely allow access to the community for their guests, service providers or contractors by including their information in the kiosk at the visitor’s entrance of our front gate. Once your information is added to the kiosk’s database, visitors have two ways to contact you from the front gate for access.

1. Visitors can scroll through the name directory on the keypad to find your name. When your name is selected, the phone number you provided will be called. You can have a two-way conversation with the visitor to confirm their identity before pressing “9” on your phone to open the gate.
2. Visitors can simply enter your three digit Lot Number on the keypad and the telephone number you provided will be called. You can have a two-way conversation with the visitor to confirm their identity before pressing “9” on your phone to open the gate. The Lot Number must be entered as three digits. Therefore, Lots with two digits should add a leading zero and Lots with just a single digit should add two leading zeros.

- Examples:

Lot Number	Keypad Entry
7	007
17	017
150	150

*We hereby request that our name, lot number and telephone number be added to the community database for the purpose of remote gate control. We acknowledge that the speed limit on all Horseshoe Acres Club roads is 25 MPH and agree to advise all visitors, service providers and contractors that speeding or failure to obey stop signs may result in a No Trespass notice and ban.*

Owner’s Name: \_\_\_\_\_
