

HORSESHOE ACRES CLUB, INC.  
P.O. BOX 33111  
PALM BEACH GARDENS, FL 33418

### 09-HAC Gate Code Request Form

You will now have a code that is specific to your property. This code is for your personal use. Please be sure to have your guests call your name for access. Please take the time to fill out the gate access form and return it to make sure we have your name and correct contact number at the front gate for your guests to call you for access. If you forget your private code, call your lot number from the gate and let yourself in the gate by pressing 9 when you answer.

Your private gate code that is only for your use is: \_\_\_\_\_ (then hit enter)

### Remote Gate Control Application

If you have not already set up the call box to call you when your guests arrive at the gate, please take the time to do this now. Do not give out your gate code. To make sure the callbox is calling your preferred phone number, please complete the info below and return to Thom Bean [IT-HorseshoeAcres@outlook.com](mailto:IT-HorseshoeAcres@outlook.com) or a board member.

Owner's name: \_\_\_\_\_

Address: \_\_\_\_\_ Lot #: \_\_\_\_\_

Telephone # to be called from call box: \_\_\_\_\_

We hereby request that our name, lot number and telephone number be added to the community database for the purpose of remote gate control. We acknowledge that the speed limit on all Horseshoe Acres Club roads is 25 MPH and agree to advise all visitors, service providers and contractors that speeding or failure to obey stop signs may result in a No Trespass notice and ban.

Owner Signature \_\_\_\_\_ Date \_\_\_\_\_

**NOTE: Front gate call box:** The resident will get a call from 972-231-1999 which is a Texas number. It is a good idea to give the 972-231-1999 number a contact name on each person's contact list, such as "Horseshoe Acres gate", so there will be no confusion. When you receive a call from the front gate you will be asked to press 1 to receive call. By resident pressing 9 on the phone, it will open the gates and raise the bars to allow access. In some cases, the resident may be an Administrator of the residence with a smart phone. In that case, the resident will be able to see a picture of the person requesting entrance and can push the open button on the smart phone.

We invite your attention to "**How-to-guide to the Horseshoe Acres Cellgate gate entry system**" on our WEB Site by our HSA IT Man Mr. Thom Bean [IT-HorseshoeAcres@outlook.com](mailto:IT-HorseshoeAcres@outlook.com) for more technical inputs to smart phones.
